GAZETTE NOTICE NO. 221

THE COFFEE ACT
(No. 9 of 2001)

APPLICATION FOR LICENCES IN THE COFFEE INDUSTRY

NOTICE is given that pursuant to the provisions of section 19 (5) of the Coffee Act, 2001, the Coffee Board of Kenya has published the list of applicants for the grant of licenses to various persons who wish to provide services in the coffee industry for the year 2012/2013.

The purpose of the grant of the licenses is to enable the applicants to provide services as indicated against the kinds of licenses applied for.

Since the grant of licenses may affect the coffee growers within the country, such person who may be affected by the grant of the likeness to the applicant may raise objections.

Any person or body desirous of making any representations on or objections to any of the grant of such licenses as aforesaid must do so by letter addressed to the managing Director, Coffee Board of Kenya, Coffee Plaza, 10th Floor, Haile Selassie Avenue, P.O. Box 30566-00100, Nairobi

The representations and or objections, to be lodged with the Board should be done within fourteen (14) days next following the date of the notice in the Kenya Gazette.

WHEREAS Joseph Oindi Getonto, of Kisii in the Republic of Kenya, is the registered proprietor of that piece of land containing 0.30 hectare or thereabouts, known as Kitutu/Mwagichana/2435, situate in the district of Kisii, and whereas the chief magistrates' court at Kisii in land dispute tribunal suit No. 108 of 2011, has directed that the said piece of land be subdivided into two portions and one portion be transferred to the applicant, Charles Monari Onkundi, and whereas all efforts made to recover the land title deed issued earlier to Joseph Oindi Getonto on 12th October, 2010 have failed, notice is given that after the expiration of thirty (30) days from the date hereof, provided no valid objection has been received within that period, I intend to dispense with the production of the said land title deed and proceed with the subdivision of the said piece of land and transfer one portion to Charles Monari Onkundi, and upon such registration the land title deed issued earlier to the said Joseph Oindi Getonto, shall be deemed to be cancelled and of no effect.

Dated the 11th January, 2013.

MR/1485220 S. R. KAMBAGA,
Land Registrar, Kisii Central District.

GAZETTE NOTICE NO. 268

THE REGISTERED LAND ACT
(Cap. 300, section 33)

REGISTRATION OF INSTRUMENT

WHEREAS Elizabeth Cheptum Samoei, of P.O. Box 201, Moi's Bridge in the Republic of Kenya, is the registered proprietor of that piece of land containing 0.71 hectare or thereabouts, known as Chepsiro/Kibuswa Block 2/Kiptenden/164, situate in the district of Trans Nzoia, and whereas the senior principal magistrates' court at Kitale, in civil suit No. 50 of 1995, has ordered that the said piece of land be transferred to Jelagat Taprandich, of P.O. Box 201, Moi's Bridge, and whereas the registered proprietor has refused to surrender the said land title deed issued in respect of the said piece of land, notice is given that after the expiration of thirty (30) days from the date hereof, provided no valid objection has been received within that period, I intend to dispense with the production of the said land title deed and issue a land title deed to the said Jelagat Taprandich, and upon such registration the land title deed issued earlier to the said Elizabeth Cheptum Samoei, shall be deemed to be cancelled and of no effect.

Dated the 11th January, 2013.

MR/1485183 A. KAVEHI,
Land Registrar, Trans Nzoia District.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PETROL SERVICE STATION ON LR NO. KAJIADO/KAPUTIEI NORTH/ 30605 IN KAJIADO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed petrol station on L.R. No. Kajiado/Kaputiei North/ 30605 in Kajiado County.

The Proponent (Gulf Energy Limited) of the Proposed Petrol Service Station is proposing to provide petroleum and motor vehicle service in the area i.e. along Kitengela, Kenya and our Regional Presence.

The following are the anticipated impacts and proposed mitigation measures:

*Possible Impact**Mitigation measures*

Soil and Geological impacts (Soil erosion, Soil contamination and Soil instability)

- Earthworks should be controlled so that land that is not required for the construction works is not disturbed.
- Excavated materials and excess earth will be kept at appropriate sites
- The Contractor shall protect areas susceptible to erosion

Air pollution and exhaust emissions

- Workers shall be trained on management of air pollution from vehicles and machinery.
- Vehicles delivering soil materials shall be covered to reduce spills and windblown dust.
- Dust generating activities (excavation, handling and transport of soils) are not carried out during times of strong winds.
- Water is applied whenever dust emissions are visible at the site

Fire and safety

- Place portable fire extinguishers at suitable locations.
- Mark and sign-post all emergency exits.
- Ensure safety warnings are prominently displayed on site, such as "No smoking", "No naked flames."

Noise pollution and vibration

- Use of ear protection aids by construction workers.
- Restriction of construction activities to day time.
- Comply with the provisions of Environmental Management and Co-ordination (Noise and Excessive Vibrations Pollution Control) Regulations, 2009 regarding noise limits at the work place.

Emergency preparedness and evacuation procedures

- Design suitable documented emergency preparedness and evacuation procedures
- Ensure that the most current emergency telephone numbers posters are openly and strategically displayed within the construction site.

Loss of vegetation

- Design and landscaping for flower beds.
- Preparation of the flower and ornamental tree beds.
- Planting of appropriate flowers and trees.

Generation of solid waste

- Comply with the requirements of the Environmental Management (Waste Management) Regulations Legal Notice 120.
- Clearly designate and construct an appropriate waste collection facility or provide covered refuse skips.
- Carefully collect used oil in drums and dispose of by licensed refuse contractor.

Increased demand for water

- Conservation (wise use) of water by installing water conserving taps that turn-off automatically when water is not being used.
- Provision of adequate water storage facilities and rain water harvesting system.
- Installation of rainwater harvesting structures.
- Sensitize construction workers to conserve water by avoiding unnecessary water use.

- Install a discharge meter at water outlets to determine and monitor total water usage.
- Inclusion of a solar lighting system to reduce on use of electricity.
- Ensure electrical equipment, appliances and lights are switched off when not being used.
- Install energy saving fluorescent tubes at all lighting points.
- Monitor energy use during construction and set targets for reduction of energy use.
- Ensure provision and proper use of suitable personal protective equipment (PPE).
- Sensitize workers on construction safety and also conduct regular staff training & equipment servicing.
- Use of safety signage, barriers and education/public outreach to prevent public contact with all potentially dangerous equipment.
- Maintain a fully stocked and accessible first aid kit.
- Place portable fire extinguishers at suitable locations, according to the activities in the construction programme.
- Mark and sign-post all emergency exits.
- Ensure safety warnings are prominently displayed on site, such as “No smoking”, “No naked flames”.
- Comply with the requirements of the Environmental Management (Waste Management) Regulations.
- Waste should not be burned on site or dumped in undesignated waste disposal areas.
- Clearly designate and construct an appropriate waste collection facility or provide covered refuse skips.
- Proper handling and storage procedures for hazardous wastes e.g. fuel oil should be stored in areas with hard standing and containment to handle spills.
- The Contractor should plan and implement traffic management programme on daily basis.
- Comply with all applicable legislation and by-laws with regard to road safety and transport.
- Movement of construction vehicles timed to avoid peak periods.
- Provide temporary road signs or notices to indicate on-going works.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.
- (c) County Director of Environment, Kajiado County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

FOR THE PROPOSED MAU EBURU FOREST ELECTRIC FENCE
PROJECT, NAIVASHA DISTRICT, NAKURU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Mau Eburu forest electric fence project, Naivasha district, Nakuru County.

The Proponent (Kenya Wildlife Service) is proposing to construct an electric fence around Mau Eburu forest in Naivasha district, Nakuru County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Restricted access to resources	<ul style="list-style-type: none"> • Need to sensitize and educate the adjacent community on alternative livelihoods. • Initiate pilot projects such as alternative sources of energy e.g. biogas and farm forestry.
Loss of vegetation and soil erosion	<ul style="list-style-type: none"> • Restrict clearing only to fence alignment section. • Fence line to follow forest boundary as much as possible. • Human labour to be used during fence clearance. • Undertake backfilling of excavated sites after fence installation. • Return soil to site after post are erected. • Confine activity within the cleared area. • Apply the 3Rs (Reduce, Reuse, Recycle). • Encourage use of human labour instead of heavy machines. • Limit camp operations to a small area • Undertake planting of indigenous tree species on these areas.
Solid waste generated during construction	<ul style="list-style-type: none"> • Dispose waste at licensed disposal sites. • Limit the number of people staying in the camp.
Potential for fence vandalism	<ul style="list-style-type: none"> • Ensure KFS security rangers conduct regular patrols along the fence perimeter. • Train fence attendants to ensure that the fence is checked for effectiveness. • Maintain the fence cut line regularly. • Ensure regular replacement of broken down fence equipment. • Ensure that the energizer houses have security to mitigate theft of energizers and electric wires. • Sensitize the community to appreciate and participate in ensuring fence sustainability. • Support community enterprise projects. • Encourage community policing. • Intensify patrols in along the fence line. • Establish a fence maintenance Kitty. • Form a fence committee.

- Potential accidents emanating from electrical shocks
- Conduct awareness and sensitization programmes.
 - Install clearly labeled warning signs every 100 meters written 'HATARI' to the electric wires to caution of danger.
 - Five meters fence outline clearance should be maintained.
 - Farmers encouraged retaining their own farm fences and barriers.
- Dust pollution
- Control vehicle speeds to minimize dust.
 - Encourage use of serviceable vehicles.
- Occupational health and safety
- Always provide a well equipped First Aid Kit at the project site.
 - Carry out an induction course on safety precautions.

- the environmental issues
- Health and safety of the workers
- Provide cleaning drinking water
 - Provide protective gear for instance ear muffers, helmets and aprons
 - Provide sanitary facilities for the workers
 - Ensure all health and safety requirements e.g. fire exits and firefighting equipment are installed.
 - Workers should be given the appropriate protective attire (aprons, dustcoats).
 - Provide First aid kit
 - All wastes should be properly disposed at council designated sites
 - Employ cleaners to ensure general cleanliness of the premises
 - Workers should be trained on occupational health & safety and first Aid
 - Train staff on petroleum product handling
- Waste management
- Garbage should be disposed off in accordance to the councils requirements
 - Provide refuse waste bins at strategic points.
 - Recommend suitable disposal methods if contracting a third party to dispose off waste.
 - Encourage waste separation by the tenants in different coloured polythene bags.
 - Disposal of all liquid waste into septic tanks
 - Proper storage ,handling and disposal of new oil and used oil and related wastes
 - Maintaining plant and equipment to avoid leaks
- Noise pollution
- Maintain plant equipment if present/used
 - Construction activities to be restricted to day time
 - Appropriate selection of machinery
- Road safety
- Enforce speed limits for construction vehicles especially along road links leading to the site.
 - Provide billboards at the entrance to notify motorists about the development
- Air Emissions
- Engines are switched off when waiting refueling.
 - Introduction of unleaded oils and low sulfur diesel as demand raises that has less harm to the environment
- Traffic Hazards.
- Construction of 100 m long acceleration and deceleration lanes.
 - Clear marking of 'Exit' and 'Entry' points.
 - Discourage roadside parking along Embu-Kiritiri Road.
 - Provide adequate lighting at the entry and exit points.
 - Seek permission of access to Mombasa road from the Chief Engineer (Roads) before commencement of construction
- Pollution to surface water
- Develop a storm water drainage system

and linkage to natural drains.

- Ensure efficiency of drainage structures through proper design and maintenance
 - Construct drains to standard specifications
 - Regular inspection of oil interceptors and drainage channels
- Increased energy Demand
- Switch off electrical appliances when not in use
 - Provide for adequate natural lighting in facility to reduce consumption.
 - Use energy saving bulbs including those for street and security lights
 - Explore the use of solar energy
 - Provide standby generator for instances of power cuts
- Outbreak of fire
- Underground fuel storage tanks fitted with leakage sensors
 - Install "No smoking" alert signs to avoid accidental ignition of fire.
 - Provision of three fire extinguishers
 - Place 'fire outbreak advisory' notices at strategic locations
 - Windows on the buildings should not be fitted with grills
 - Undertaking periodic fire drills for the workers.
 - Educating workers on fire prevention and fighting control tricks.
 - Regular inspection of fire extinguishers by a registered agency
- Increased water demand
- Recycling of wastewater where appropriate.
 - Install water taps which turn off automatically when water is not in use.
 - Provide on-site water storage tanks to harness rainwater and therefore reduce demand on tap water sources especially after the completion of the development.
 - Put up notices advising users on need to conserve water e.g 'turnoff after use.'

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

DRAFT STRATEGIC ENVIRONMENTAL ASSESSMENT (SEA)
REPORT FOR THE UPPER TANA NATURAL RESOURCES
MANAGEMENT PROJECT (UTaNRMP)

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 42 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received a draft Strategic Environmental Assessment (SEA) Report from the International Fund for Agricultural Development, Kenya County Office on Upper Tana Natural Resources Management Project (UTaNRMP) funded by the Government of Kenya and IFAD. The SEA findings are also expected to influence policy development in Natural Resource Management in Kenya.

The programme has the following key objectives;

1. To identify key linkages between rural poverty and the environment.
2. To provide key environmental and social opportunities and recommendations to influence IFAD support to UTaNRMP development efforts towards environmental sustainability and climate smart development.
3. To ensure the full consideration of alternative programme/project options including the do nothing option, at an early stage when there is still greater flexibility.
4. To identify environmental impacts and opportunities of mitigation measures into programme designs during the formulation stage of programmes and in the process enhance environmental management plans.
5. To ensure the cumulative, indirect or secondary impacts of diverse multiple activities are considered including their unintended consequences.
6. To obviate the needless reassessment of issues and impacts at project level where such issues could have been more effectively dealt with at a strategic level and offer time and cost savings.
7. To ensure environmental principles such as sustainability, polluter pays and the precautionary principle are integrated into the development, appraisal and selection of programme options.
8. To provide an early opportunity to check whether or not a proposal complies with national and international environmental policy and consequent legislative obligations.

The key findings of the detailed SEA are summarized below.

The SEA established that the Upper Tana Natural Resources Management Project (UTaNRMP) is relevant in the implementation of the current Plan, Programme and Policy (PPPs) in Environment and Natural Resources Management (ENRM). However, the programme can be strengthened in order to enhance the positive impacts to the environment and livelihoods. The following policy gaps and weaknesses were identified as areas in which the programme could contribute through lobbying, advocacy and capacity building by NSAs;

- Accelerating the approval of pending environment and natural resources policy and legal frameworks such as Draft Environment Policy, Draft Wetlands Policy, Draft ASALs Policy
- Formulation and implementation of important policies which are non-existent especially the following:
 - National Land Use Policy
 - National Charcoal Policy
 - National Groundwater Policy
 - National Green Energy Policy
 - Advocacy for the establishment of a Climate Mitigation Fund,
 - Advocacy for the development of county climate mitigation strategies

In addition, a number of gaps were identified in other on-going programmes The SEA recommends that the International Fund for Agricultural Development Kenya County Office should get involved in these areas in order to improve the Environment and Natural Resources Management (ENRM) sector in Kenya. They include the following;

- Sustainable land management

- Management of invasive species
- Sustainable forestry including dry land forestry
- Integrated water resources management
- Sustainable agricultural development
- Domestication of Multilateral Environmental Agreements (MEAs)
- Promotion of Cleaner Development Mechanism (CDM) projects

The SEA also identified some areas that Upper Tana Natural Resources Management Project (UTaNRMP) can engage in as stipulated in the current National Plans and Strategies especially Vision 2030 under the Land Sector; Water Sector; Agriculture and Rural Development; Environment and Climate Change

The full DRAFT SEA report on the implementation of the Upper Tana Natural Resources Management Project (UTaNRMP) is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding the SEA. Comments can also be e-mailed to dnema@nema.go.

LAVINGTON AREA IN NAIROBI COUNTY
INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed church development at Lavington area, in Nairobi County.

The Proponent (The Redeemed Christian Church of God) is proposing to construct a church at Lavington area, in Nairobi County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Structural demolition and soil disturbance	<ul style="list-style-type: none"> • Demolition of the existing structures within the site, transportation and dumping of the generated wastes as per the laid down rules and regulations of the Building Code. • Site excavation works to be planned such that a section is completed and rehabilitated while another section begins. • Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil. • Excavation materials be loaded into trucks and transported to designated disposal sites. • Design and implement an appropriate

Loss of environmental services	<ul style="list-style-type: none"> • landscaping programme to help in re-vegetation of part of the project area after construction. • Reuse of the top soil in landscaping. • Do not remove trees unnecessarily especially those unaffected by the construction works. • Replant trees on completion of construction. • Carry out landscaping of open spaces. • Participate in tree planting exercises outside whenever there is an opportunity.
Generation of Noise, Dust and Vibrations	<ul style="list-style-type: none"> • The noisy construction works will entirely be planned to be during day. • Noise control measures will be implemented at the site area if the noise levels exceed 85 dBA for a continuous 8 hours exposure. • Noise absorbers/acoustic designs to be installed within the church building. • Trees along the boundary lines, acting as noise buffers to be preserved. • Ensure that all generators and heavy duty equipment are well maintained, insulated or placed in enclosures to minimize surfeit noise levels and • Sensitize the users/drivers against unnecessary hooting and raving of engines but switch them off when not in use. • Sprinkle water on graded access routes whenever necessary to reduce dust generation by construction vehicles. • Adhere to Noise Pollution and Vibration Control Regulations 2009
Storm water and other water wastes	<ul style="list-style-type: none"> • Open drains connected to NCC storm water drains will be provided on site. • Construction of water storage tanks to collect storm water for domestic uses. • Provision of suitable facilities for wastewater disposal (such as a conservancy tank which can be exhausted) • Ensure wastes are properly disposed of or re-used systematically
Occupational Health and Safety & Security Impacts	<ul style="list-style-type: none"> • Engagement of competent personnel coupled with health and safety awareness campaigns among the workers. • Provision of suitable and adequate personal protective equipments to the staff. • Use of correct and well maintained tools, equipment and machinery. • Provision and availability of fully stocked first aid kit at site • Periodic safety inspections and an insurance policy to cover any injured worker in case of eventuality. • Strict adherence to the provisions of OSHA, 2007. • Ensure the general safety and security at all times by providing day and night security guards and adequate lighting within and around the premises.
Waste generation, handling and management	<ul style="list-style-type: none"> • Minimize waste through accurate estimation of the sizes and quantities of materials required. • Recycling methods be employed to

minimise wastage.

- A licensed waste collection and disposal company be contracted to collect the wastes and dispose to a designated point.
- Incorporate suitable facilities for collection, segregation and safe disposal of solid wastes.
- Provide a waste collection point and appropriately label bins or preferably colour code various categories of waste.
- Organic wastes should be composted for use in the gardens while all other categories should be sold or given out to various respective approved recyclers.
- Dustbin cubicles must be protected from animals and rain.
- Bins should be regularly cleaned and disinfected.
- Ensure a continuous review of waste management procedures in line with advancing technological and regulatory changes.
- Adherence to waste management regulations as stipulated in EMCA.

Effluence and other Wastes Generation

- Connect to the NWSC sewer subject to authorization and supervision by NWSC staff
- Use approved, strong & durable materials sewer system connections
- Use suitable manhole covers
- Strictly abide by the provisions of the Environmental Management (Water Quality) Regulations
- Follow the prevailing NEMA regulations on waste collection, storage, transportation and disposal.
- Connect sewerage to the NWSC sewer system.
- Waste water management installations (e.g. Sewers) be isolated from public water pipes to avoid contamination of the later.

Water consumption

- Employ efficient use of and identify water saving schemes by regularly monitoring the utilization trends.
- Explore alternative sources of water in case of insufficiency
- Proper harnessing and storage of rain water techniques be employed to remedy the scarcity problems.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Nairobi County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed used oil refinery/ recycling facility and an office block on plot L.R No. 209/9814, off falcon road, industrial area adjacent to Nairobi bins services Embakasi district, Nairobi County.

The Proponent (Zhongken Petrochemical Limited) of the proposed project is proposing to construct used oil recycling facility and an office block.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Air pollution	<ul style="list-style-type: none"> • Sprinkling water where necessary, sensitize construction workers, and plant more vegetation to arrest any fugitive dust.
Noise pollution	<ul style="list-style-type: none"> • Sensitize drivers of construction machinery on effects of noise. • Avoid playing heavy music. • Implementation-on activities to be restricted to day time. • Workers in the vicinity of or involved in high levels noise to wear safety protective gear.
Oil pollution	<ul style="list-style-type: none"> • Proper storage handling of pure oil, and recycling of oil wastes. Maintain project tanks and equipment to avoid leaks.
Changes in hydrology /impeded drainage	<ul style="list-style-type: none"> • Proper installation of drainage structures .Install cascade to break the impact of water flowing in the drains. • Ensure efficiency of drainage structure through proper design and maintenance. • Provide gratings to the drainage channels.
Soil erosion	<ul style="list-style-type: none"> • Control Earthworks and compact loose soils. • Install drainage structure properly. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control and conservation structure where necessary. • Efficiency of erosion control measures, pave the site to avoid soil contamination. • Cement the proposed site to avoid underground water contamination
Water resources	<ul style="list-style-type: none"> • Adopt sound water conservation measures. • Recycle water at the implementation phase where possible. • Make use of roof catchments to provide water i.e. for general purpose, install automatic taps.

- Road safety
- Limited speed along roads leading to site.
 - Provide bill boards at the site / entrance to notify and warn motorists.
- Public health and occupational safety.
- Train construction workers on occupational health and safety.
 - Ensure staff are medically fit and regularly examined.
 - Provide full protective gear and Workmen's Compensation cover in addition to the right tools and operational instruction manuals.
 - Adopt sound waste management system to ensure proper solid waste disposal and collection facilities.
 - Adopt sound development keeping practices.
 - Ensure effective wastewater management.
 - Sensitize staff on environmental management.
 - Ensure good working condition of the sewerage system always and sanitary facilities should be clean and disinfected.
 - Engage the services of qualified personnel and or ensure training.
- Vegetation
- Landscaping of the site and vegetation (trees and flowers) in areas.
- Fire safety and preparedness
- Conduct training on the fire fighting evacuation and emergency response.
 - Sensitize the residents on fire risks and conduct regular fire drills.
 - Adopt effective emergency response plans.
 - Maintain/service fire fighting machinery regularly.
 - Provide emergency numbers at strategic points.
- Security
- Provide security guards and facilities during the entire project cycle.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PROJECT ORE PROCESSING AND
TAILINGS STORAGE FACILITY, LOLGORIAN, TRANS MARA

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed project ore processing and tailings storage facility, Lolgorian, Trans mara.

The Proponent (Kilimapesa Gold {Pty} Ltd) of the proposed project is proposing to build an ore processing and tailings storage facility, Lolgorian, Trans mara.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Noise and vibration	<ul style="list-style-type: none"> • Reduction of noise levels to those stipulated as acceptable occupational exposure levels as per general EHS guidelines will be instituted. • The large earth moving equipment e.g. excavators, dozers, drills are equipped with sound proofing driver cabs. • Use of personal hearing protection gear will be ensured. • Exposure to vibration of the hand to arm type or those affecting whole body will be adequately controlled through the selection and maintenance of equipment to meet occupational vibration exposure standards. • Discussions with public to minimize nuisance. • Good maintenance of machinery.
Ventilation hindrances	<ul style="list-style-type: none"> • Implement confined space entry programme as per GEHS guidelines. • Ensure surface ventilation units and auxiliary equipment are managed so as to eliminate hazards that may interfere with smooth ventilation equipment performance. • Ensure fast evacuation of miners where ventilation may accidentally fail. • Barricading all areas which are not ventilated. • Auxiliary exits or refuge chambers which are not more than 15 minutes from the online portal. • That the tunnels are of sufficient size to accommodate all persons working in the local vicinity. • The auxiliary chambers are equipped with independent connections to the surface for speedy access to air supply, water and first aid facilities.
Loss of biodiversity	<ul style="list-style-type: none"> • Environmental conservation measures. • Adequate dismantling and disposal of abandoned equipments. • Consultation & accommodating of views on conservation. • Re-vegetation where necessary. • Rehabilitation where possible. • Landscaping and re-vegetation of dumping areas. • Reclamation of dumps.
Waste generation	<ul style="list-style-type: none"> • Implement good disposal practices. • Treatment of poor quality water prior to discharge. • Use of manmade wetlands with densely planted reed beds to neutralize acidity and precipitate metals. • Use of waste as backfill in underground

	<ul style="list-style-type: none"> mines. Recovery of effluent for recycling as process water. Treatment of process effluent solutions (e.g. cyanide destruction) prior to release into tailings dams. Maximize use of recycled process water. Chemicals handling, storage and disposal procedures should be enhanced. Design of closed circuit to recycle leaching solutions. Treatment of waste solutions to breakdown cyanide. Construction of septic tanks. Construction of solid waste dump site. Construction of an incinerator. 				
Water contamination	<ul style="list-style-type: none"> Continuous monitoring and verification of dam stability. Prepare emergency plans. Block access to tailings dam area. Seepage trenches construction. Treatment of process waters prior to damming. Collect and recycle water in seepage trenches. Monitor water levels in adjacent land. 				
Occupational health and safety impacts	<ul style="list-style-type: none"> On hand emergency response plans which will cover provision and making available the necessary emergency responses and rescue equipment. Having a well trained workforce on specialized first trained response team. Personnel training on worksite safety management to include an effective communication programme. Training the workforce on the recognition and prevention of occupational hazards. Installation of illumination systems in underground tunnels on mobile systems or rail carriages. Installation of clear signage in hazardous or risky areas and at emergency areas. Use of contrast colouring on equipment/machinery including provision of reflective markings so as to enhance visibility will be implemented. Use of moving equipment and machinery with improved operation sight lines will be adapted. Issuing workers with high visibility clothing will be ensured. Appropriate illumination in the immediate operating areas especially where there is turning or reversing of machinery or equipment will be carried out. Installation of reflective markings on structures, traffic junctions where the potential for accidents is high will be addressed. Installation of safety barriers in high risk locations especially in transport corridors or roads will be ensured. 				
Chemical hazards and safety impacts	<ul style="list-style-type: none"> Adequate ventilation should be ensured. Dust and fume extraction systems should be installed. Eye wash and emergency shower 				
					<p>systems should be installed.</p> <ul style="list-style-type: none"> Rapid treatment supplies should be close at hand for handling chemical poisoning if it should ever occur.
		Use of explosive material			<ul style="list-style-type: none"> Using, handling and transporting explosives in accordance with the laid down national explosive safety regulations. Managing blasting activities in terms of loading, pricing and firing explosives. Adoption of consistent blasting schedules and minimizing blast time changes. Warning devices such as horn signals, flashing lights will be effected before each blasting activity to alert all workers and third parties in the surroundings areas. Training of personnel on explosives handling and safety management. The post-blast effects of blasting sites will require to be carried out by qualified personnel who will also look into any devices which may have malfunctioned or for any unexploded blasting devices. Only qualified personnel will be used in transportation, storage and use of explosives on site. Application of approved audited procedures will be implemented in the handling, transport, storage, charging, blasting, and destruction of unused or surplus explosives.
			Landslides and land collapse		<ul style="list-style-type: none"> Geotechnical safety will be ensured through the proper planning, design and operation of all structures especially those which will involve underground mining excavations in order to reduce geotechnical risks. Geotechnical safety survey will also cover waste dumps such as tailing dams during the operational phase and closure phases of the facility.
			Security		<ul style="list-style-type: none"> Provide security guards and facilities during the entire project cycle
