(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED SHREEJI PETROLEUM STATION ON PLOT NO. BUKHAYO/MUNDIKA/9772 BUSIA TOWN

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Development of Shreeji Petroleum Station on plot no. Bukhayo/Mundika/9772, Busia Town.

The proponent, Shreeji Service Station of P.O Box 2220-50100, Kakamega, is proposing to construct a petroleum service station that will include a petroleum storage and supply facility, tyre center, puncture repair, car wash, car service bay, vehicle parking space, quick-shops and a mini-supermarket.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impacts	Proposed Mitigation measures
Solid and liquid waste management	<ul style="list-style-type: none"> To be segregated into recyclable and non-recyclable wastes at source. Provision of solid waste storage bins and skips. Ensure that the solid waste collected within the petrol station is disposed of in an approved dumpsite. Monitor exhaustible septic tanks so that they do not become overfilled. Weekly inspection of the entire

supermarket to check for blockages and breaks. This should be followed by regular repairs and servicing of the within the supermarket.

Sludge management	<ul style="list-style-type: none"> Apply quicklime treatment to dewatered sludge in order to create a pathogen and odor free product. Avoid storing dewatered sludge in the facility. Use the services of NEMA-licensed sludge disposal facilities.
Water usage	<ul style="list-style-type: none"> Due to high costs related to water usage and irregular supply, the management and users are advised to control water usage to avoid wastage. The management is strongly advised to install large water tanks and reticulation infrastructure for water harvesting and distribution within the service station.
Air and noise pollution	<ul style="list-style-type: none"> To maintain air quality, within and outside the station, good ventilation coupled with good housekeeping should be done to stem dust and odors. Social forestry and gardening within the vicinity of the facility are highly recommended. Create space by demolishing any unsightly illegal structures on site. Noise and air pollution can be reduced by use of acoustic internal design materials and planting of ornamental trees and shrubs. Operate noise-generating equipment during regular working hours (e.g. 7 am – 7 pm) so as to reduce the potential of creating noise nuisance during the night.
Fire hazards	<ul style="list-style-type: none"> Installation of fire extinguishers. Hazard warnings signs and safety installations shall be clearly posted. Install audible alarm systems especially in areas with gas usage. Train workers on fire and safety precautions during and emergency preparedness. Designate conspicuous fire exits coupled with clear signs to guide escape during fires. Put NO SMOKING signs and install smoke detectors.
Health and safety	<ul style="list-style-type: none"> Provide First Aid Kits in the facility and provide workers with protective clothing. Train staff on health, safety and emergency procedures on a regular basis. Make prior arrangements with health care facilities such as a Health Centre in proximity. Design and implement an emergency response plan.
Energy use	<ul style="list-style-type: none"> Develop contingency plans for power failures, outflows, equipment malfunctioning and other conditions which may affect the proper functioning of the station. Institute a preventive maintenance scheme for the equipment and

machinery.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Busia County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED BAHARINI ELECTRA WINDS WIND
FARM PROJECT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed project.

The Proponent (Electrawinds Kenya Limited) intends to construct and operate a wind farm consisting of a maximum of 45 wind turbines (each turbine expected to generate between 1.8-3MW) which will generate a total of 90MW, including access roads, crane platforms, underground and overhead electricity cables for the distribution of electricity generated in Baharini Location at Mpeketoni Division, Lamu County.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impacts Proposed Mitigation Measures

Air pollution	<ul style="list-style-type: none"> • Spray of water during construction activities. • Control of speed and movement of construction vehicles and those transporting construction materials. • Use of low-sulphur diesel for diesel-operated machinery. • Covering loose materials such as soil piles at the site to prevent dust pollution and spreading by wind. Vehicles transporting such materials should also be covered. • Use of dust masks by the constructions workers.
Noise pollution	<ul style="list-style-type: none"> • Control the noise levels at all the times. • Use of ear protection aids by construction workers. • No unnecessary hooting by construction vehicles. • Restriction of construction activities to day time. • Use of equipment designed with noise

control elements.

Clearing of vegetation and trees	<ul style="list-style-type: none"> • Temporary fencing-off noisy machinery such as vibrators. • Limit idling of pickup trucks and other small equipment. • Encourage workers to turn off vehicle engines whenever possible. • Minimal clearance of trees and vegetation. • Planting grass to cover open/bare grounds. • Maintain vegetation and trees in areas not affected.
Disturbance of soil structure	<ul style="list-style-type: none"> • Put soil traps around perimeter fence and on steep areas. • Landscaping with indigenous trees and grass planting. • Maintaining specified routes for construction vehicles. • Control earthworks. • Use of light machinery and equipments during construction.
Destruction of habitat	<ul style="list-style-type: none"> • No off-road driving. • Control of earthworks. • Minimal clearance of vegetation. • No destruction of bird nests.
Generation of solid waste	<ul style="list-style-type: none"> • Provision of waste collection bins at the project site. • Re-use of soil, construction debris and other waste where applicable. • Proper containment and disposal of solid waste. • Contracting a licensed waste collection and disposal company. • Creation of awareness on proper solid waste disposal.
Occupational health and safety risks	<ul style="list-style-type: none"> • Use of suitable personal protective equipment. • Site to be sprinkled with water to minimize dust. • Use of stable ladders and other climbing/support structures. • Sensitise workers on construction safety measures. • Cleanliness and organization at the proposed site. • Fencing or covering of risky areas such as deep pits. • Safety signs/posters. • Engagement of skilled laborers.
Fire hazards and accidents	<ul style="list-style-type: none"> • Acquire fire fighting facilities for different types of fires. • Sensitise workers on fire safety. • Keep well-stocked first aid box. • Proper handling and use of tools and machinery. • Store all hazardous chemicals in their original containers and obtain their Material Safety Data Sheets.
Increase in traffic flow	<ul style="list-style-type: none"> • Adequate road warning signs to traffic regulations. • Set driving speed limits. • Choice of access routes during construction phase should take into

- account minimum disturbance to the neighbours.
- Security
- Guarding of site by a reputable security firm.
 - Collaboration with existing security machinery.
 - Partnership with neighbours and police in community policing.
- Generation of waste water and water pollution
- Encourage re-use and recycle of water where possible (during construction phase).
 - Proper storage, handling and disposal of oils and oil wastes from construction machinery.
 - Prevent soil/silt wash down into open drains.
- Public health and safety
- Proper handling and disposal of solid waste.
 - Operation of noisy machinery at daytime only.
 - Control of visitors to the site.
 - Provide appropriate PPEs for the workers.
 - Electrical installations should be made as safe as possible.
 - Installation of adequate water supply.
 - Provide adequate sanitation during all the stages of the project.
 - Ensure public/community awareness on proposed project from planning to operational phase.
- Economic and social
- Contractor and Proponent to involve the local youth for unskilled labor.
 - Involve women in the project to the extent possible.
 - Use of local goods and services where possible.
 - Educate those involved in construction activities on HIV/AIDS and other sexually transmitted diseases.
- Compliance
- Apply for all required approvals, licenses and permits before commencement of the proposed project.
 - Environmental monitoring of the project during construction phase.
 - Establish a register with clear environmental laws and regulations.
 - Carry out annual environmental audits during operation phase of the proposed project.

FOR THE PROPOSED CONSTRUCTION OF A MORTUARY ON
PLOT KAMRERI/KSAGUNGA/136 MBITA DIVISION, MBITA
DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed the above project.

The proponent, intends to construct an 8 roomed mortuary comprising of a body receiving area, a showering area, embalming room, body parking room, a cashier, office and staff storage area, and outside a car park and a waiting area in Kamreri/Ksagunga/136 Mbita Division, Mbita District.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact /Issue</i>	<i>Mitigation</i>
Biomedical waste	<ul style="list-style-type: none"> • The proponent shall seek approval from appropriate lead agencies and Local Authority. • All biomedical waste shall be securely packaged in biohazard containers which shall be labeled with the symbol set out in part I and II of the schedule (attached). • The proponent shall ensure that the biomedical waste is not stored above 0° c for more than seven days without the written approval of the relevant lead agencies, provide that untreated pathological waste shall be disposed of within 48 hours. • Proponent shall construct an autoclave to comply with the standards set out in the Environmental Management and Co-ordination (Waste Management) Regulation, 2006. • The proponent shall not transfer biomedical wastes without valid permit issued out by NEMA in consultation with relevant lead agencies. • The proponent shall comply with all statutory requirement and the Environmental Management and Co-ordination (Waste Management Regulation, 2006) throughout the project cycle. • All biomedical wastes produced before the installation of a class 2B incinerator will be transported using licensed mode of transport to the licensed incinerators.
Air quality	<ul style="list-style-type: none"> • The proponent shall install Class 2B incinerator for the disposal of hazardous, potential hazardous and biomedical wastes. • The incinerator will be sited in accordance with relevant local municipal authority planning scheme, the topography of the area and be compatible with premises in the neighborhood. • The staff handling the waste will be well trained on safe handling of hazardous wastes.
Solid a waste	<ul style="list-style-type: none"> • Reuse of construction debris will be

	<ul style="list-style-type: none"> encouraged. Separate waste appropriately to recover re-usable prior to disposal. A licensed private contractor will be engaged to appropriately dispose of all the solid waste that shall not have been reused on completion of the work. Train workers on risk associated to inhalation of dust and appoint at least one person to ensure proper dressing and waste handling by the workers. Provide workers with appropriate protective gears including nose and mouth mask. Appropriate bill of quantity will be prepared to minimize left over. Reduce the amount of waste generated by accurate budgeting to cutoff on excess that may expire before use. Separate waste appropriately to recover re-usable prior to disposal. Ensure bins are erected appropriately, labeled and regularly being emptied and cleaned. Engage a licensed private contractor to appropriately dispose of on a regular basis the anticipated solid waste. 	
Liquid waste	<ul style="list-style-type: none"> Connect to a standard approved septic tank. Advise workers and patient to only use soft tissue toilets to a void blockage of sewer. Tine. Prompt un blocking and repair of stalled sewer lines. Channel storm water appropriately to a void mixing and outburst of sewer. 	
Energy loss	<ul style="list-style-type: none"> Install an energy efficient lighting system in the building. Maximize on use of natural light during die day. Switch off all light and equipment when not in use. Use of energy efficient cooking stoves and gargets to conserve energy. Purchase essential items in bulk to cut on the number of trips to stockers. 	
Water loss	<ul style="list-style-type: none"> Install water conserving automatic taps, shower heads and toilets. Harvest rein water from roof in an elevated tank and use it in flushing toilets. Store adequate amount of water from the municipal supply. Promptly fix damaged /leaking pipes, faulty taps and associated facility within the building. Sensitize worker and patient on need for efficient utilization of scares water resources. 	
Fire hazard and insecurity	<ul style="list-style-type: none"> Install firefighting equipments at convenient locations within the premise. Train employs on precautionary measures to avoid fire accidents. Fix damaged electrical systems and gadgets promptly. Proper supervisions should be ensured in the kitchen to avoid open fire. Fire disaster evacuation plan posters to be developed and posted appropriately. 	<ul style="list-style-type: none"> Insure that the site is always guarded by a reputable security firm. Constant site patrol. Collaboration with existing security machinery. Partnership with neighbors and police in community policing.
		Vibration and noise
		<ul style="list-style-type: none"> Appropriate dressing of workers which include: earmuffs/plugs. Maintaining excavation equipment in accordance to manufacturer's specification to ensure efficient operation. Noise and vibration will be kept at acceptable levels and construction/excavation activities confined to normal working hours. Compliance to the environmental management and coordination (noise and excessive vibration pollutions control) Regulations, 2009. Legal Notice No. 61, 2009. Minimize long hours of exposure. Excavation activities to be limited between 8 am and 6 p.m. Use of appropriate cushioning for heavy equipment.
		Occupation accidents
		<ul style="list-style-type: none"> Ensure warning signs on road safety are erected at appropriate location during excavation and transportation. Speed limit of transport vehicles to be kept low. Plan stabilization and evacuation of the injured. Liaise with the district Occupation Health and Safety department. Provide for appropriate signage and warning at work site. Use personal protective equipment (PPE) to workers and any visitors. Provide for first aid facility as per the OSHA. Ensure availability of loaded firefighting equipment.
		Dust and air quality
		<ul style="list-style-type: none"> Dampen work areas materials heaps and mulch bare ground to minimize dust emission. Maintain equipment and machinery to manufacturer's specifications. Erect a protective screen around the construction area. Minimize period of machinery idling.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED TALA SLAUGHTER HOUSE ON PLOT
NO. 2354, TALA MARKET, KANGUNDO DISTRICT,
MACHAKOS COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the above proposed project.

The Proponent (Leonard Mutuku Sesi) is proposing to establish a slaughterhouse with the capacity to handle 100 livestock a day on a 1.5 acre piece of land in Tala Market, Kangundo District, Machakos County.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impacts Proposed Mitigation Measures

Dust and Air Pollution	<ul style="list-style-type: none"> Minimal land excavations to be practiced. Sprinkling of water to reduce dust. Workers should wear protective clothing such as dust masks to reduce inhalation. During operation, areas that are heavily trampled upon by livestock should be regularly watered, especially during the dry season.
Soil Erosion	<ul style="list-style-type: none"> Construction of terraces. Planting of vegetation cover. Avoid overstocking of cattle. During operation, areas that are heavily trampled upon by livestock should be regularly watered, to maintain some vegetation cover.
Solid Waste	<ul style="list-style-type: none"> Excavated soils should be placed back where possible after operations. Stones, ballast and sand remains should be used for land reclamation purposes where applicable for example erosion gullies be filled with these materials. The skin should be sold to tanneries for further processing to useful products. The bones should be sold to animal feed manufacturers for use in their industries as a raw material. Some of the bones may be sold to the community members as food for their domestic animals such as dogs. Hooves, horns and bones should be sold to manufacturing industries for use as raw materials e.g. industries that make glue products. Cow dung shall be used as manure. The contents should be moved out the soonest possible.
Liquid Waste	<ul style="list-style-type: none"> Blood will be collected in a blood pit which will be exhausted after some time before it gets filled. Waste water from the floors will be collected into a pit properly designed for the purpose. The water will be emptied from the pit regularly to avoid foul smell within the vicinity.
Insecurity	<ul style="list-style-type: none"> Security officers should be employed to reduce insecurity at the site. Cattle will be confined in an open area

for at least six hours before slaughter for any claims.

Visual Impact	<ul style="list-style-type: none"> Slaughtering of animals be done during day time for easier identification in case of any claims. Proper fencing of the premise to keep the animals in a defined area. Planting of a live fence and trees should be done to reduce the visual impact.
Noise Pollution	<ul style="list-style-type: none"> Overstocking should not be done to reduce noise impacts. Construction activities should be limited to day time to prevent disturbances.
Odor	<ul style="list-style-type: none"> Proper sewage treatment facilities and maintenance be done. Waste from the animals such as dung to be properly disposed of, or be sold to the community as manure.
Health and Safety	<ul style="list-style-type: none"> Protective clothes for workers. Provision of sanitary facilities. Training to improve worker awareness. Proper animal confinement. Proper records of slaughtering and condemnations. Construct a suitable condemnation pit for disposal of condemned carcasses.
Underground Pollution	<ul style="list-style-type: none"> Operations should not interfere with the underground water as noted that the area as a high water table (2m below). Construction of soak pit and condemnation pits should be impermeable to prevent seepage into underground water.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED WAA WHALE SHARK SANCTUARY, IN
WAA/KWALE COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed project.

The Proponent (SeaQuarium Ltd.) intends to establish whale shark tourism in Kenya while pushing for the conservation of the giant fish by placing two juvenile whale sharks in a sanctuary where visitors will

have an opportunity to swim with the whale sharks. It will be implemented along the reef to a minimum water depth of 14 meters depending on the water tide.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Impacts Proposed Mitigation Measures

- | | |
|---|--|
| Environmental/marine conservation and community Involvement | <ul style="list-style-type: none"> • The proponent should ensure that technical and fiscal capacity of the community is built in conjunction with conservation measures of the marine resources at Waa Location. • Women must also be given opportunities to participate on the project. • Decision making process being inclusive of the community views and wishes in order to make the project suitable. • Involvement should include but not limited to the following: the Local leaders, the BMU, the Kaya Waa elders, the local County Council Representatives as well as the Imam of the Waa Mosque/community. |
| Economic development | <ul style="list-style-type: none"> • The project should bring diversification of economic activities in the Waa community. |
| Research and innovation | <ul style="list-style-type: none"> • An MoU with universities and other research institutions should be put in place to ensure involvement in learning more about the Whale Shark Species. • The MoU should seek to avail the Sea Quarium to researchers from these institutions to undertake joint research projects. |
| Fatal threat of the whale | <ul style="list-style-type: none"> • The project proponent shall have in its team qualified Marine Biologists and Veterinary Doctors to take care of the welfare of the whale sharks in the enclosure. • The whale sharks should be kept in their normal habitat in the open sea, not in superficial environment. • Regular cleaning incase of any foreign materials at the sanctuary by the visiting persons (student or tourists). • Regulate the materials carried to the sanctuary by the visiting persons (students or tourism). |
| Safety of the tourists | <ul style="list-style-type: none"> • All PPE used by the participants should be owned and managed by the Sea Quarium. • The project proponent will routinely sanitize all PPE hence mitigate concerns that something undesirable or unsanitary would be exposed to the whale sharks and other marine flora and fauna. • During the pre-dive orientation, safety rules should be carefully explained to the visitors and swimming. • Guests will be instructed to stay together in buddy pairs and to follow the Lead Dive Masters. • The proponent shall prohibit any behavior outside of the instructions such as trying to touch or getting closer to the whale sharks. Such will result in the immediate expulsion of the guest from the seaquarium. • Safety Dive Masters and Lead Dive Masters will carry visual and physical barrier i.e. hard nets for the animals if necessary. • The safety rules will order to avoid inflicting unnecessary stress to the whale |

- | | |
|--------------------------------------|--|
| Habitat/migration of the whale shark | <ul style="list-style-type: none"> • shark is completely harmless to humans. • Whale sharks are known to be highly mandatory, but their migration patterns are not clearly understood. • The project provides a good avenue for research in migration patterns of the whale sharks as the captured whales will be tagged and released after every six months. • Upon release they should mapped using GPS as they mitigate. |
| Habitat/communication disturbance | <ul style="list-style-type: none"> • Sharks do not use sound to communicate to each other, however, they do sense sound as pressure through their lateral system. • High decibel sounds may negatively impact on the whale sharks and can potentially disrupt normal behaviors such as feeding, mating or migration. • Standard operating procedures will be put in place to control noise within the enclosure. |
| Skills development | <ul style="list-style-type: none"> • The proponent shall identify and train youth within the project area on skill sets required for the marine conservation job market. This can be done with partnerships with local institutions such as Mombasa Polytechnic University College and University of Nairobi (Dept. of Marine Conservation Studies- Diani). • The proponent shall have guided tours (of university, polytechnic, secondary schools) within its sanctuary to initiate interest among the youth. |

The full report of the proposed project is available for inspection during working hours at:

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
