## THE COMPETITION ACT

(No. 12 of 2010)

## EAST AFRICAN TEA TRADE ASSOCIATION

## EXEMPTION

PURSUANT to provisions of section 25 (3) of the Competition Act, 2010, the Competition Authority of Kenya wishes to notify the public that the East African Tea Trade Association (EATTA) has made an application under section 25(1) of the Competition Act, 2010 for an exemption from the application of Part III A and B of the Act for an indefinite period.

The East African Tea Trade Association is a voluntary non-profit making umbrella body representing the interests of the tea industry in Africa. The East African Tea Trade Association was registered in 1956 and has two hundred members drawn from ten countries all actively engaged in growing, buying, brokering and warehousing tea. The Association's principal mandate is to run the weekly Mombasa Tea Auction Centre, currently one of the largest Tea Auction Centres in the world and the only one dealing with tea from more than one country.

The exemption application seeks exemption from the provisions relating to—

- (a) the unjustifiable exclusion from a trade association of any person intending to carry on in good faith the trade in which the association is formed, such as—
- (i) trading only permitted amongst members;
  - (ii) broker members to be the only ones to offer tea for sale, and thus being the only ones to produce auction catalogues. Similarly, producer members not to act as broker members;
  - (iii) broker members to only deal with producer members and buyer members and those representing non-members to provide a bank guarantee that is renewable annually;
  - (iv) members not allowed to deal with brokers who are not members;
  - (v) producer members not to act as brokers;
  - (vi) members not to deal with non-members or else a financial penalty will be imposed on them as if they were applying for membership afresh; and
  - (vii) buyer members not allowed dealing with brokers who are not members.
- (b) the direct or indirect making of a recommendation by a trade association or its members or any class of its members in relation to prices or the terms of trade such as—
- (i) setting broker fees and commissions;
  - (ii) joint determination of penalties;
  - (iii) prohibiting brokers from offering discounts;
  - (iv) broker members to collect from both buyers and producers the full brokerage commission and charges;
  - (v) charge per lot to be paid to the broker to defray cataloguing expenses; and
  - (vi) setting of warehouse fees.

All interested parties may, within thirty (30) days of the publication of this notice, submit any written representations regarding the application.

Submissions may be delivered through email: info@cak.go.ke or hand-delivered between 8.00 a.m. to 5.00 p.m. during working days to: The Competition Authority of Kenya, Railways HQs, Block "D", Ground Floor, Haile Selassie Avenue or through P. O. Box 36265-00200, Nairobi.

Dated the 10th October, 2016.

**(3) Return on investment**

Return on investment decreased from KSh. 15.9 billion in 2014 to KSh. 10.7 billion in 2015. The decrease was mainly caused by a decline in net investment income due to change in market value of investments.

WILDLIFE BARRIER AROUND MARSABIT FOREST RESERVE  
IN MARSABIT COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya Wildlife Service is proposing to construct a Human Wildlife Barrier around Marsabit Forest Reserve in Marsabit County. The electric fence will be an eight to ten-strand fence to control movement of both large and small animals. The fence alignment will be between the forest reserve and the community as proposed in the boundary survey report. Solar energy will be used to power the energy needed for the fence to deter movement of both large and small animals, hence reducing human wildlife conflicts.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact</i>	<i>Mitigation Measures</i>
Loss of vegetation and soil erosion	<ul style="list-style-type: none"> <li>• Clearing vegetation only in construction areas and demarcating areas where no clearing will be required.</li> <li>• Limiting vehicular transport to undefined roads to prevent unnecessary damage to habitats.</li> <li>• Monitor areas of exposed soil during periods of heavy rainfall to ensure that any incidence of erosion is quickly controlled.</li> <li>• Compacting areas with loose soil and providing structures for soil erosion.</li> <li>• control on steeper areas of the site and controlling activities during the rainy season.</li> </ul>
Solid waste	<ul style="list-style-type: none"> <li>• Sensitize the workers on good environmentally friendly behaviours.</li> <li>• Employing a waste management plan such as terms collection schedules; ensuring all wastes are dumped in their designated areas and through legally acceptable methods and that the bins are regularly cleaned and disinfected.</li> <li>• Making available suitable facilities for the collection, segregation, and safe disposal of the wastes. Waste should be segregated in terms of recyclable, reusable, biodegradable, non-biodegradable and providing equipment for handling the wastes.</li> <li>• Ensuring bins are protected from rain and animals.</li> </ul>
Air quality	<ul style="list-style-type: none"> <li>• Using efficient machines with low emission technologies.</li> <li>• Regular maintenance and services of machines and engines.</li> <li>• Sensitize truck drivers to avoid unnecessary racing of vehicles at loading, offloading sites and parking areas and encourage them to keep vehicle engines off at these points.</li> </ul>

Occupational Health and Safety risks (OHS)	<ul style="list-style-type: none"> <li>• Employing an OSH plan that will outline all OSH risks and provide a strategy for their management.</li> <li>• Raising awareness and training workers on safe use of the equipments and associated risks.</li> <li>• Providing the workers with adequate PPEs and monitoring regularly to ensure they are replaced on time when they wear out.</li> <li>• Placing visible and readable signs around where there are risks; control the movement of vehicles, motorists, and pedestrians around the site.</li> <li>• Providing easily accessible fire fighting equipment and ensuring site personnel are well trained in using them. The fire fighting equipment should also be regularly checked and maintained.</li> <li>• Construction materials should meet minimum standards applicable in the Country by Kenya Bureau of Standards (KeBS).</li> <li>• Ensuring that work standards are observed and that there is no compromise, site specifications are observed strictly, design specifications are observed and length of time for curing and other engineering requirements are observed.</li> <li>• Ensure there is security in and around the site to control the movement of people.</li> </ul>
Noise and vibration	<ul style="list-style-type: none"> <li>• Regular maintenance of equipment to ensure they remain efficient and effective.</li> <li>• There should not be unnecessary hooting of vehicles and switch of equipment when not in use.</li> <li>• Construction works should be carried out only during daytime.</li> <li>• Complying with the EMC (Excessive vibration and Noise) Regulation of 2009.</li> </ul>
Visual impact	<ul style="list-style-type: none"> <li>• Schedule the non-peak tourism season.</li> <li>• Maintaining good housekeeping to ensure materials are kept in order.</li> </ul>
Social impact as a result of influx of people.	<ul style="list-style-type: none"> <li>• Encourage public participation with the locals during the early planning/design stage.</li> <li>• Proper training of crew member on code of conduct, local cultural behaviour, and responsible community interaction.</li> <li>• Proper implementation of security and signage around the project site.</li> <li>• Communicate availability of job opportunities to the local community in the project area.</li> <li>• Immediately repairing and maintaining any damaged caused by the project operations on public or private property.</li> </ul>
