 - (c) Comply with the values and principles of the Constitution
 - (d) Include a statement that it has taken into consideration the above issues in drawing the plan.
5. The management body shall submit an environmental impact assessment plan pursuant to existing law on environment.
6. The management body ensure that at least 10% of the land is covered by trees and vegetation as part of the Constitutional requirement towards achievement of at least 10% tree cover and green growth agenda.
7. The management body shall comply with the ideals and principles governing circular economy including waste elimination, refusal, recycling, re-use, remanufacture and composting.
8. The management body shall support and adopt systems and mechanisms for nature regeneration and sustainable landscape management.
9. The management body shall adopt climate smart technologies for operations and processes that reduce carbon footprints and emissions.
10. The management body shall adhere to the Global Industry Practices (GIPs) that promote good environmental and public health standards.
11. The management body shall ensure proper documentation, stock-take, monitoring and reporting of the land-scape level critical biodiversity resources including measures taken towards their protection and conservation
12. The management body shall pay any assessment payable to the County Government as authorized in law.
13. The management body shall facilitate the harmonious coordination of services provided by other public agencies on the reserved land, ensuring optimal and efficient utilization.
14. The management body shall be responsible for safeguarding the land making sure the demarcated boundaries of the land parcels are well maintained.

Dated the 7th August, 2025.

MR/7803043 GERSHOM OTACHI,
Chairman, National Land Commission.

GAZETTE NOTICE NO. 12782

THE COUNTY GOVERNMENTS ACT

(Cap. 265)

THE TAITA TAVETA COUNTY TAX WAIVERS
ADMINISTRATION ACT, 2013

COUNTY GOVERNMENT OF TAITA TAVETA

WAIVER ON LAND RATES ON PRINCIPAL, PENALTIES AND INTEREST

NOTICE is given that the County Executive Committee Member for Finance and Economic Planning, in exercise of the powers conferred by sections 5 and 6 of the Taita Taveta County Tax Waivers Administration Act, 2013, and with the written concurrence of the Governor, has granted the following waivers on unpaid land rates:

1. Principal Sum- A waiver of Forty Percent (40%) on all unpaid land rates, provided that the remaining sixty percent (60%) of the outstanding principal is paid in full on or before the 15th October 2025.

2. Penalties and Interest- A waiver of One Hundred Percent (100%) on all penalties and interest accrued on land rates, provided that the outstanding principal is paid in full within on or before 15th October 2025.

This waiver is aimed at encouraging compliance among defaulting ratepayers, facilitating recovery of outstanding revenues for county development, and ensuring a smooth transition to the new valuation roll by regularizing ratepayer accounts.

Dated the 4th September, 2025.

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED CONSTRUCTION OF SHUNGWAYA
LEVEL 4 HOSPITAL ON PLOT NO. 4783
LAMU/HINDI/MAGOGONI ALONG MOKOWE-HINDI ROAD IN
SHUNGWAYA, HINDI, LAMU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Co-ordination Act 1999, the National Environment Management

Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Shungwaya Health Access Limited, proposes to construct a level 4 hospital in two phases with a total gross built-up area of approximately 6,550sq meters and a capacity of 52 in-patient beds. Phase 1 shall comprise a total of 52 beds with structures (main hospital block, morgue, cafeteria and maintenance and service points). While phase 2 shall comprise of additional gross built-up area of 891sq meters and structures (nurses tuition block and accommodation block, surgery block, parking, pharmacy, laboratory, TB clinic, associated facilities and amenities on plot L.R No. 4783 Lamu/Hindi/Magogoni along Mokowe-Hindi Road in Shungwaya, Hindi, Lamu County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
De-vegetation resulting from the clearing of the site, leading to vegetation loss and soil erosion	<ul style="list-style-type: none"> Design and implement an appropriate landscaping and tree planting program to help revegetate part of the project area after construction using potential natural vegetation. Ensure proper demarcation and delineation of the project area to be affected by construction works. Preserve trees/vegetation/Native species, e.g., <i>Echinochloa haploclada</i>, <i>Acacia</i> sp, inside the plot where possible. Install silt fences and sediment traps to prevent runoff to local water bodies, per EMCA (Water Quality) Regulations, 2006. Retain >70% native vegetation and replant disturbed areas with native species. Schedule excavation during dry months (Jan–Feb, Jun–Sep) to minimize erosion.
Increased solid waste and liquid waste generation	<ul style="list-style-type: none"> Segregate the waste at the site. Construct different waste disposal pits for biodegradable organic waste and another for non-biodegradable waste with appropriate shed/cover to prevent accumulation of rain/flood water. Ensure proper disposal and separation of construction waste (pieces of wood, glass etc.) in the contractor's yard (off the site). Engage services of a registered NEMA waste handler to dispose of the waste at designated disposal sites. During the transportation of building materials and waste, trucks should be covered to prevent littering on the road. Sensitize workers on the reuse of materials where appropriate. Accurate estimation of the required materials, order materials in the sizes and quantities needed to avoid large quantities of residual materials. Ensure that construction materials left over at the end of construction work is used in other projects rather than being disposed of as waste. Ensure that damaged or wasted construction materials, including cabinets, doors, plumbing and lighting fixtures, marbles, and glass, will be recovered for refurbishing and use in other projects. Donate recyclable/reusable or residual materials to local community groups and institutions for repurposing.

Impacts

Exposure to public and occupational safety and health risks

Mitigation Measures

- Use of durable, long-lasting materials that will not need to be replaced as often, thereby reducing the amount of construction waste generated over time.
- Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to biophysical elements.
- Use building materials that have minimal or no need for packaging to avoid the generation of excessive packaging waste.
- Provide welfare facilities (1 toilet/25 workers, potable water, first aid) per OSHA, 2007.

• Implement all necessary measures to ensure health and safety of workers and the general public during the construction phase as stipulated in OSHA, 2007.

• Initiate annual occupational safety audits and risk assessments through DOSHS approved auditors.

• Undertake Planned maintenance (PPM) schedules for construction machines, tools, and equipment. e.g., hoists, ladders.

• Register the construction site with DOSHS.

• Use signage to warn staff and/ or visitors that are not involved in construction activities around risk areas.

• Clear marking of work site hazards and training in recognizing hazard symbols.

• Hold talks to discuss safety and health aspects.

• Subject the workers to basic first-aid skills.

• Keep the site cordoned off from unauthorized persons.

• Provide full first aid kits at the construction site office. Provide matching Personal protective equipment for the hazards on site.

• Supervision of works shall be done regularly to ensure that safety conditions are met while any deviation from safety regulations is immediately reclaimed following the best practices regarding safety at work.

• Staff working in dust generating activities, e.g., site preparation, excavation, concrete mixing, stone dressing, should be provided with personal protective equipment (PPE). The use of PPE shall be enforced.

• Food preparation to occur on site and discourage unregulated food vendors.

• Segregate waste (hazardous, recyclable, organic) in designated bins, targeting 60% recycling, per Sustainable Waste Management Act, 2022.

• Hire >50% local labor to boost economic benefits and reduce conflicts, with training per OSHA 2007.

• Install biometric access and CCTV for security.

Dust Emissions

• Site Hoarding/netting to contain dust within the site.

• Use water spraying (2–3 times daily) to reduce dust to PM10 <50 µg/m³, per EMCA (Air Quality) Regulations, 2014.

<i>Impacts</i>	<i>Mitigation Measures</i>	<i>Impacts</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> • Ensure strict enforcement of on-site speed limit regulations. • Careful screening of the construction site to contain and arrest construction-related dust. • Personal Protective Equipment to be worn at all times. • Construction materials on site to be covered to prevent them from being blown off by the wind. 	environment	<ul style="list-style-type: none"> • Place blood soaked, dripping, blood caked disposable PPE and waste materials in leak proof bags or impervious containers. • Close and seal containers and bags prior to removal or replacement to prevent spillage or protrusion of contents during handling, transport, or storage. • Avoid excessive or rough handling to prevent rupture of containers and bags. • Treat all human blood and Other Potentially Infectious Materials (OPIM) as if contaminated with blood-borne pathogens. • Contain and confine blood and OPIM. • Wash hands and skin with warm water and soap immediately after any contact with blood or OPIM and remove gloves, even if gloves appear to be intact. • Use waterless antiseptic hand cleansers when hand washing facilities such as warm water and soap are not available. • Maintain a cleaning schedule, which requires the cleaning of work surfaces, equipment surfaces and waste containers. • Sensitize hospital management on social issues such as increased incidences of reported Hospital Acquired Infections. • Practice good personal hygiene. • Institute and implement a first aid provision process and readily available emergency response plan. • Hospital equipment and apparatus requiring additional safety measures should be managed and operated by qualified persons. • Install firefighting equipment and maintain firefighting equipment regularly. • Provide emergency numbers at strategic points. • Adequate sanitary facilities should be provided and standard cleanliness maintained. • Hospital management should be provided with evacuation procedures in case of fire. • The hospital management should practice fire drills at least once a month to ensure that they have the knowledge to act accordingly in case of fire. • Members of staff to be given the correct tools and equipment for the jobs assigned. • Members of staff to be trained in the use of all equipment that they will be required to operate. • The proponent to implement the provisions of the Occupational Safety and Health Act, No. 15 of 2007.
Exhaust Emission	<ul style="list-style-type: none"> • Use low-emission machinery (Euro 3 standards) to reduce emissions by 20%, per EMCA (Air Quality) Regulations, 2014. • Vehicle idling time shall be minimized • Alternatively fueled construction equipment shall be used where feasible. • Equipment shall be properly tuned and maintained. • Sensitize truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off or keep vehicle engines off at these points. 		
Noise nuisance and vibration	<ul style="list-style-type: none"> • Construction is restricted to between 8 a.m. to 5 p.m., on weekdays and 8 a.m. – 1 p.m., on Saturdays. Noise is limited to 60 Db during the day as stipulated in the Second Schedule–Maximum Permissible Noise Levels for Construction Sites of EMCA (Noise and Excessive Vibration Pollution) (Control) Regulations, 2009. • The use of hearing protection gears by workers when exposed to noise levels above 85 dB(A). • Ensure that all generators and heavy-duty equipment are insulated or placed in enclosures to ensure ambient noise levels. 		
Increased storm water runoff, soil erosion and flood risks	<ul style="list-style-type: none"> • Roof water shall be harvested and stored in a reservoir for reuse. • Proper installation of the stormwater drainage system. • Ensure efficiency of drainage structures through proper design and maintenance. • Provide gratings to the drainage channels. • Ensure management of excavation activities. • Control activities, especially during rainy seasons. • Provide soil erosion control and conservation structures where necessary. • Install cascades to break the impact of water flowing in the drains. • Compact loose soils to minimize wind erosion. • A storm water management plan that minimizes impervious area infiltration by use of recharge areas. 		
Traffic disruption along Mokowe-Hindi Road	<ul style="list-style-type: none"> • Schedule delivery of materials during non-peak hours. • Adhere to the load carrying capacity stipulated by the traffic act Cap. 403.

	<ul style="list-style-type: none"> Return expired cytotoxic drugs to suppliers for disposal, per NEMA guidelines. Store radioactive waste in approved containers (e.g., Lab Safety Supply #12788) for decay and transfer to authorized vendors.
Traffic Disruption	<ul style="list-style-type: none"> To reduce queue time and lengths, improve the quality and surface of the access road. Implementation of the traffic management guidelines, including provision of on-site parking spaces. No parking along the external roads. Adequate parking spaces provided on site. Dropping off and picking up of patients to occur on site.
Noise Nuisance	<ul style="list-style-type: none"> Hospitals are generally quiet places. Ambulances to silence sirens when approaching the hospital. Increased vegetation cover and available perimeter wall will act as containment for noise. Use sound deflectors to minimize noise from the generator. Routine service of the back-up generator to increase the efficiency of fuel burning. Installation of signage in appropriate places, such as high human activity points, to remind people to observe silence.
Pressure on utilities/ infrastructure, water, and electricity	<ul style="list-style-type: none"> Install low-flow fixtures and dual piping to reduce water use by 20%, per EMCA (Water Quality) Regulations, 2006. Use solar PV (30% energy) and LED lighting to cut consumption by 15%, per EMCA (Air Quality) Regulations, 2014. Pave access roads, provide disabled-access pathways to reduce traffic impacts. Use bio-digester for wastewater (BOD <5 mg/L), per EMCA (Water Quality) Regulations, 2006. Install RCC box drains and permeable surfaces to manage stormwater, per the Climate Change Act, 2016. Conduct climate risk assessment using KMD data to address GHG emissions and flooding risks.
Exposure and increased security vulnerability due to increased human traffic frequency and density	<ul style="list-style-type: none"> Engage the services of security guards. Install CCTV cameras. Place hotline numbers in strategic places. Sensitize the staff on security precautions. Install security lights in strategic places around the compound, preferably with automatic on/off sensors. Secure the site with a perimeter wall and screening of all people visiting the hospital at all points of entry and exit. Discourage idling activities at points of entry or exit.

(No. 8 of 1999)

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED WASTE OIL (SLOP OIL) /SLUDGE HANDLING FACILITY ON PLOT L.R NO. MBOLOLO/TAUSA/4990 IKANGA AREA, TAITA TAVETA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Co-ordination Act 1999, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent Seahorse International Logistics Limited, proposes to set up a waste oil handling facility which will comprise of three (3) oil storage tanks with a capacity of 40,000litres each (40m³), loading and offloading area, oil/water interceptor, office block and sanitation facilities on Plot L.R No. Mbololo/Tausa/4990 Ikanga Area in Voi Sub-County, Taita Taveta County.

The following are the anticipated impacts and proposed mitigation measure;

<i>Impacts</i>	<i>Mitigation Measures</i>
Occupational health and safety hazards at workplace	<ul style="list-style-type: none"> Provide all employees with appropriate and adequate Personal Protective Equipment and Clothing (PPE's & C). These include working safety boots, overalls, helmets, goggles, earmuffs, respirators/masks and gloves. Warning and Safety signage will be placed at the strategic areas within the facility. Provide employees with correct equipment tools and for the jobs assigned and train on their use. Provide first aid services and emergency services kit at the project site. This should be fully equipped at all times and should be managed by qualified personnel. Register the facility as a workplace with the Directorate of Occupational Safety and Health Services in compliance with OSHA, 2007. Ensure moving parts of machines and sharp surfaces are securely protected while on site. Develop and implement a safety and health policy, and emergency response plan for the facility. Provide and keep an accident/incident register occurring on the site including near misses

<i>Impacts</i>	<i>Mitigation Measures</i>	<i>Impacts</i>	<i>Mitigation Measures</i>
	and actions taken to prevent future occurrences.		collect and dispose wastes at designated disposal sites.
	<ul style="list-style-type: none"> Regulate the entry of visitors to the construction site by deploying adequate security measures. Conduct annual occupational safety and health audits for the facility. Comply with the provisions of the Occupational Safety and Health Act, 2007. 		<ul style="list-style-type: none"> Label hazardous wastes containers in accordance with the requirements provided in the Environmental Management and Co-ordination (Waste Management) Regulations, 2024. Ensure compliance with the Environmental Management and Co-ordination (Waste Management) Regulations, 2024 Legal Notice 178/2024 in handling wastes at the facility during operations.
Loss of flora and fauna (Biodiversity loss)	<ul style="list-style-type: none"> The contractor will ensure proper demarcation of the project area to be affected by the construction works; Strict control of construction vehicles to ensure that they operate only within the area to be disturbed by access routes and other works. The proposed project site will be rehabilitated through the rehabilitation plan to be developed by the proponent to try and retain the natural flora and fauna during the operation phase. This will entail progressive planting of native trees within the boundary of the facility. Introduction of vegetation (trees, shrubs and grass) on open spaces within and around the site. Indigenous species would be preferred. 		
Noise and excessive vibrations	<ul style="list-style-type: none"> Provision of appropriate Personnel Protective Equipment (PPE) to protect the employees from noise and vibrations effects. Construct mainly during the day (8am-5pm). Consider labour based construction methodologies. Sensitize truck drivers to avoid unnecessary hooting and running of vehicle engines. Ensure compliance with provisions of Environmental Management and Co-ordination (Noise and Excessive Vibrations Pollution) (Control) Regulations, 2009 during construction and operation phases of the proposed project. 	Waste oil leaks and spills	<ul style="list-style-type: none"> Pave the loading and offloading area with an impervious material to prevent any spills from contaminating ground water and soil. Construct a bund wall around the storage tanks, and loading and offloading area to prevent accidental oil leaks and spills from flowing to other areas. Ensure that adequate spill containment is provided at all times in case of severe leakage of oils at the facility. Document and display at the facility emergency response procedures and plan for spillage incidents. Regularly wash/desludge and maintain the oil interceptor in good working condition. Conduct regular tests on the waste oil storage tanks to curb potential tank leakages. Ensure compliance with the Technical Guidelines on the Management of Used Oil and oil Sludge in Kenya, 2016 during facility operations.
Air pollution (Dust emissions and exhaust fumes)	<ul style="list-style-type: none"> Minimizing the number of motorized vehicles on use during plant operations. Rehabilitate disturbed areas. Wet all active construction areas as and when necessary to reduce dust. Dry materials should be kept dump or covered at all time. Install gadgets to intercept the particulate matter as well as controlling gaseous emissions. The proponent should undertake quarterly air quality analysis by a NEMA accredited laboratory in compliance with Environmental Management and Co-ordination (Air Quality) Regulations, 2024 during facility operations. The proponent should apply for emission license from the Authority in compliance with Environmental Management and Coordination (Air Quality) Regulations, 2024 during facility operations. 	Fire risks and hazards	<ul style="list-style-type: none"> Procure and provide adequate firefighting equipment and place them strategically within the facility. Firefighting equipment should be serviced regularly by fire service providers. Develop and implement a fire and emergency response plan. Train employees on the use of fire-fighting equipment. Develop and implement a fire and emergency response plan. Provide informative fire safety and warning signage within the facility. Enforce a 'no smoking' rule within the facility Undertake fire safety audit (FSA) for the facility in compliance with OSHA, 2007.
Solid waste management	<ul style="list-style-type: none"> Segregates their waste (hazardous and non-hazardous) by type and then disposes the wastes in an environmentally acceptable manner in compliance with Environmental Management and Co-ordination (Waste Management) Regulations, 2024. Contract a NEMA licensed waste handler to 	Physical disturbance of the project area	<ul style="list-style-type: none"> The proponent should ensure that there is minimal disturbance to the topography of the area. The excavation and landscaping design shall not interfere with local drainage or change the topography or introduce physical changes that are not in harmony with the physical setting of the project area. The project components and associated structures should be aesthetically acceptable to blend in with the surroundings. The proponent shall as much as possible complete the works in such a way that natural aesthetics shall be retained at the project site.

<i>Impacts</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> Restoration shall be undertaken to ensure that the original setting is as much as possible retained.
Water quality and effluent management	<ul style="list-style-type: none"> Create awareness among the staff on water conservation mechanisms. Monitor the quality of the domestic effluent and the discharge from the oil/water interceptor to ascertain conformity to the standards stipulated under the Environmental Management and Co-ordination (Water Quality) Regulations, 2024. Apply for and obtain an Effluent Discharge License (EDL) from Authority during facility operations in compliance with Environmental Management and Co-ordination (Water Quality) Regulations, 2024. Ensure compliance with Environmental Management and Co-ordination (Water Quality) Regulations, 2024 during facility operations.

INVITATION OF PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Co-ordination Act 1999, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Sequoia China Limited, proposes to construct a 28 storey residential apartment with a total of 644No. Units (2No. basements, ground floor, mezzanine floor plus 28No. floors) consisting of (98No. Studio units, 316No. One-bedroom units, 124No. Two-bedroom units, 100No.three-bedroom units, 2No. Three-bedroom duplex units and 4No. Four-bedroom duplex units).gym, game room, swimming pool, restaurant, and other associated facilities and amenities on plot L.R. No. 1870/85 (Nairobi/Block 7/57) along Ring Road Parklands/Highridge Area, Westlands Sub-County, Nairobi City County.

The following are the anticipated impacts and proposed mitigation measure;

<i>Impacts</i>	<i>Mitigation Measures</i>
Obtaining all relevant development approvals	<ul style="list-style-type: none"> Obtain approved plans and construction permit from the Nairobi City County Government, NEMA license and NCA approval.
Air, noise pollution and vibration	<ul style="list-style-type: none"> Water sprinkling on driveways. Switch off engines not in use. Construction work to be confined to between 8am to 6pm. Provide and enforce use of PPE e.g. ear muffs, aprons, gloves. Proper servicing of machinery and equipment (oiling and greasing). Monitor noise levels as per NEMA guidelines.
Health and safety (risks of accidents and injuries to workers)	<ul style="list-style-type: none"> Education and awareness to all workers. Procure services of a health and safety officer. Provide First Aid Kits on site. Proper signage and warning to public. Provide clean water and food to the workers. The contractor to abide by all conditions including health safety and workforce welfare. Personnel to stick to standard operation procedures. Personnel to wear complete protective gear. Provision of fire-fighting equipment Comply with Kenyan safety policy and safe working procedures, laws and regulations.
Solid waste generation	<ul style="list-style-type: none"> Ensure waste materials are disposed off to County and NEMA approved sites. Use of the 3rs – Reduce, Re-use, Re-cycle. Solid waste to be collected in designated areas for appropriate disposal. Waste segregation at source. Engage a NEMA and county licensed waste handler.
Excessive water use	<ul style="list-style-type: none"> Harvesting of rain water. Training and awareness to workers on importance of water conservation and best practices. Encourage use of alternatives for dust control such as non-toxic biodegradable dust suppressants or polymers that require less water. Efficient water use in concrete mixing.
Solid waste generation and management	<ul style="list-style-type: none"> Provide waste disposal bins at strategic points well protected from adverse weather conditions and animals. Regular inspection and maintenance of the waste disposal systems. Engage a NEMA licensed waste handler to transport and dispose waste.

<i>Impacts</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> • Use of the 3rs – Reduce, Re-use, Re-cycle. • Encourage waste segregation at source.
Liquid waste generation and management	<ul style="list-style-type: none"> • Availability of NCWSC trunk sewer line in the area. • Proper connection to the existing sewer line. • -Regular inspection and maintenance of the waste disposal systems. • Use of separate storm water drainage channel.
Increased loading on infrastructure	<ul style="list-style-type: none"> • Provision of adequate parking within the facility. • Have paved driveways. • Encourage rainwater harvesting and water storage tanks. • Provide adequate storm water management system. • Increased traffic. • Increased demand on water and sanitation services.
Social conflict	<ul style="list-style-type: none"> • Encourage good relation with the neighbours through provision of employment opportunities to the community members (skilled and semi-skilled). • Formation of residents association/Register with the existing association • Improved livelihood • Strict adherence to provided ESMP.
Insecurity	<ul style="list-style-type: none"> • Secure the premise with a perimeter wall. • Installation of CCTV cameras at strategic points. • Have a entry point that is manned 24 hours. • Construction of gate house.
Building safety/land and building use	<ul style="list-style-type: none"> • Assess the condition of buildings to ascertain usefulness. • Ascertain the Planning development policy.
Accidents/injuries	<ul style="list-style-type: none"> • Securing the Site by fencing off.
Un-disconnected services e.g. power, water, telephone, septic	<ul style="list-style-type: none"> • Ensure disconnection of all services. • Remove all surface and underground cables and wiring.
Solid waste generation (demolition waste)	<ul style="list-style-type: none"> • Ensure waste materials are disposed of on County and NEMA approved sites. • Ensure re-use of materials that can be re-used. • Use of the 3rs – Reduce, Re-use, Re-cycle.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or county Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or county Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or county Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE HUMAN RESOURCE POLICIES AND PROCEDURES MANUAL FOR THE PUBLIC SERVICE —

Kenya Gazette

A.30 (1) All communication for publication in the *Kenya Gazette* should reach the Government Printer not later than Friday of the week before publication is desired.

(2) A State Department will be required to meet the cost of advertising in the *Kenya Gazette*.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
